Location : Hyderabad, India

WORK EXPERIENCE :

DATA ANALYST - JULY 2024 - PRESENT
UBER TECHNOLOGIES (payroll under Nineleaps) , HYDERABAD, TELANGANA

ROLES AND RESPONSIBILITIES :
• Designed and optimised **advanced SQL queries** to process and analyse large-scale datasets, enabling accurate insights while maintaining high query performance.
• Build interactive dashboards using **Looker studio (Google Data Studio)** to track brand performance, campaign impact, sales trends and customer behaviour.
• Designed and delivered **Quarterly Business Review (QBR)** presentations, translating complex data into clear insights and actionable recommendations to support strategic decision-making and stakeholder alignment.
• Proficient in **Google Sheets** for data analysis and validation using advanced formulas and functions, as well as conducting dashboard testing using sample data to ensure accuracy.
• Analyse large volume of complex data and applied **advanced Statistical techniques** to extract meaningful patterns and trends.
• Provide **data-driven insights** to optimise marketing campaigns and **maximise ROI** for CPG brands.
• **Automate repetitive data requirement tasks**, saving time and driving operational efficiency.

DATA ANALYST - JULY 2022 - JUNE 2024
NXTWAVE DISRUPTIVE TECHNOLOGIES, HYDERABAD, TELANGANA

ROLES AND RESPONSIBILITIES :
• Developed and optimized **complex SQL queries** to extract, transform, and analyze large datasets, ensuring efficient and high-performance database operations.
• Leveraged **Looker Studio (Google Data Studio)** expertise to design and develop visually compelling charts, showcasing excellent visualization and storytelling skills for effective insights communication.
• **Collaborated** with various **stakeholders** from different departments and teams within the organization to identify and understand their unique problem statements and analytical needs.
• Performed in-depth data analysis to pinpoint the underlying factors driving **fluctuations in KPIs**, while also delivering concise and actionable recommendations to stakeholders for addressing the **identified root causes**.
• Built **Predictive models** using various Machine Learning Algorithms to solve business problem statements.
• Collaborated with software developers, data engineers and product managers to **integrate machine learning solutions** into existing product.

BUSINESS INTELLIGENCE DEVELOPER - OCT 2020 - JULY 2022
DUCEN IT PRIVATE LIMITED, CHENNAI, TAMIL NADU

ROLES AND RESPONSIBILITIES :
• Designing and developing efficient reports using **SSRS** (SQL server reporting services).
• Developed **SQL queries** aligned with business requirements to extract and manipulate data effectively.
• Innovatively addressed project needs by designing and **incorporating new tables** into the existing ETL framework.
• Demonstrated proactive problem-solving by **optimizing the existing ETL** processes, resulting in reduction in total ETL run time.
• Exhibited troubleshooting expertise by **addressing ETL failures**, identifying root causes, and implementing effective solutions.
• Actively involved in stand up calls with client and **resolving tickets** related to **data accuracy and report performance**.

TECHNICAL SKILLS :

• Advanced **SQL expertise and strong Python skills**, focused on clean, robust, and performance-driven code.
• **Strong analytical** and **problem-solving skills**, with the ability to work with large, complex datasets.
• Solid grasp of the math behind **classification and regression ML algorithms** for effective model building and optimization.
• Implemented machine learning models and applied **hyperparameter tuning techniques** to improve model performance.
• Proficient in containerization using **Docker** for packaging, distributing, and managing applications, and successfully deployed on **AWS (EC2)** ensuring high availability and performance.
• Deep understanding of Machine Learning algorithms, NLP and **Large Language Models (LLMs)**.

SKILLS :

Programming Languages : SQL, Python, R
Data Analytics & BI : Looker studio, SSRS, Mixpanel, Google Analytics, Google sheets, Microsoft Excel, Metabase, Google BigQuery, Microsoft SQL Server, SSIS, DBT
Data Science : Jupyter Notebook, Google colab, VSCode, Streamlit, Flask, Docker, Git, NLP, Gen AI
Cloud : AWS (EC2)
Technologies : Business Intelligence, Data Analytics & Data Science

EDUCATION :

SRI KRISHNA COLLEGE OF ENGINEERING AND TECHNOLOGY
BACHELOR OF ENGINEERING - ECE
